Buenas tardes Denise,

For Cabo Rojo, 2 items:

1. I have uploaded the final cultural resources report to the Cabo Rojo eroom. Let me know if you want a hard copy and I will send one to you. I know you generally like electronic copies of final reports.
2. Just an FYI that the IDW water currently stored in tankers and approved to go to the San Germán POTW will be transported there this Friday. Frances has made all the arrangements and has been in contact with the POTW regarding the disposal date.

Enjoy your evening,

Susan
